State of Maine.
HEAD QUARTERS,
Augusta, Sept 4 1848.
THE appointment of companies to the several
divisions of the militia of Maine accorded
to the provisions of the law now in force, gives

It will be seen by this law that divisions are lowered the term of two years to raise their quota

tylunteers, at the expiration of which on last night furnished the number of my units to which they consented other divisions will be authorized to raise them on petitioning to the commander in chief. It is hoped that the martial spirit of our citizens will not become entirely extinct by the long stay of active military service, but that there still exist in our State those military and patriotic impulses that will ensure a willing and prompt return to duty and a vigorous organization in each division of the militia of Maine of all the force allowed by law.

Independent companies already organized are invited to join the volunteer corps of our State, whenever they indicate to this department their wish and determination to comply with the provisions of law they will be furnished with arms by the State.

Our citizens generally are also invited to organize new companies with becoming promptitude for which may be forwarded to this office the Adjutant General.

The State has now on hand a variety of small

and times and in a few weeks will be in possession of nearly one thousand percussion rifles of latest and most approved model which will be sent to the order of companies first making application. By the Commander-in-Chief
